Customer Care

The model and serial number are listed on the product rating plate. Refer to page 7 for rating plate location. For warranty purposes, you will also need the date of installation and name of your authorized Wolf dealer. Record this information below for future reference.

If your product ever needs attention, be sure to use a Wolf factory certified service provider.

---

Important Note

To ensure this product is installed and operated as safely and efficiently as possible, take note of the following types of highlighted information throughout this guide:

**IMPORTANT NOTE** highlights information that is especially important.

**CAUTION** indicates a situation where minor injury or product damage may occur if instructions are not followed.

**WARNING** states a hazard that may cause serious injury or death if precautions are not followed.
SAFETY PRECAUTIONS

IMPORTANT INSTRUCTIONS

IMPORTANT SAFETY INSTRUCTIONS: READ CAREFULLY AND KEEP FOR FUTURE REFERENCE.

• If food being heated begins to smoke, DO NOT OPEN THE DOOR. Turn off and unplug the oven and wait until the food has stopped smoking. Opening the door while food is smoking may cause a fire.

• Only use microwave-safe containers and utensils. Do not leave the oven unattended when using disposable plastic, paper or other combustible food containers due to the possibility of ignition.

• Clean the waveguide cover, the oven cavity, the turntable and turntable support after use. These must be dry and free from grease. Built-up grease may overheat and begin to smoke or catch fire.

• The microwave oven is intended for heating food and beverages. Drying of food or clothing and heating of warming pads, slippers, sponges, damp cloth and similar may lead to risk of injury, ignition or fire.

• Do not use metallic containers when heating food or beverages.

• This appliance is not intended for use at altitudes above 2000 m.

TO AVOID THE POSSIBILITY OF INJURY:

⚠️ WARNING

Do not operate the oven if it is damaged or malfunctioning.
Check the following before use:

a) The door; make sure the door closes properly and ensure it is not misaligned or warped.

b) The hinges and door safety latches; check to make sure they are not broken or loose.

c) Inside the oven cavity or on the door; make sure there are no dents.

d) The power supply cord; ensure that it is not damaged.

⚠️ WARNING

If the door or door seals are damaged, the oven must not be operated until it has been repaired by a competent person.
SAFETY PRECAUTIONS

IMPORTANT INSTRUCTIONS
TO AVOID THE POSSIBILITY OF INJURY:

• Never adjust, repair or modify the oven yourself.

⚠️ WARNING
It is hazardous for anyone other than a competent person to carry out any service or repair operation which involves the removal of a cover which gives protection against exposure to microwave energy.

• Do not allow grease or dirt to build up on the door seals and adjacent parts. Follow the instructions for Care Recommendations on page 12. Clean the oven at regular intervals and remove any food deposits. Failure to maintain the oven in a clean condition could lead to a deterioration of the surface that could adversely affect the life of the appliance and possibly result in a hazardous situation.

• Do not attempt to replace the oven lamp yourself or allow anyone who is not authorized to do so. If the oven lamp fails, please consult your dealer or call an authorized service agent.

TO AVOID THE DANGER OF FIRE:

• The electrical outlet must be readily accessible so that the unit can be unplugged easily in an emergency. The AC power supply must be 220-240V, 50Hz, with a minimum 1.6kW distribution circuit breaker. It should be possible to isolate the appliance from the supply by incorporating a switch in the fixed wiring in accordance with electrical codes. It is recommended that a separate circuit serving only this appliance be provided. Do not store or use the oven outdoors.

• Do not operate the oven with the door open or alter the door safety latches in any way. Do not operate the oven if there is an object between the door seals and sealing surfaces.

IMPORTANT: If you are unsure how to connect your oven, please consult an authorized, qualified electrician.

• Neither the manufacturer nor the dealer can accept any liability for damage to the oven or personal injury resulting from failure to observe the correct electrical connection procedure.
IMPORTANT INSTRUCTIONS
TO AVOID THE POSSIBILITY OF EXPLOSION AND SUDDEN BOILING:

⚠️ WARNING
Liquids and other foods must not be heated in sealed containers since they are liable to explode.

- Microwave heating of beverages can result in delayed eruptive boiling, therefore care has to be taken when handling the container.
- Do not cook eggs in their shells and whole hard boiled eggs should not be heated in microwave ovens since they may explode even after microwave cooking has ended. To cook or reheat eggs which have not been scrambled or mixed, pierce the yolks and the whites, or the eggs may explode. Shell and slice hard boiled eggs before reheating them in the microwave oven.
- The contents of feeding bottles and baby food jars shall be stirred or shaken and the temperature checked before consumption, in order to avoid burns.

TO AVOID THE POSSIBILITY OF EXPLOSION AND SUDDEN BOILING:

- Keep children away from the door to prevent them from burning themselves.
- Never use sealed containers. Remove seals and lids before use. Sealed containers can explode due to a build up of pressure even after the oven has been turned off. Take care when microwaving liquids. Use a wide-mouthed container to allow bubbles to escape.
- Pierce the skin of such foods as potatoes, sausages and fruit before cooking, or they may explode.

To prevent sudden eruption of boiling liquid and possible scalding:

- Stir liquid prior to heating/reheating.
- It is advisable to insert a glass rod or similar utensil into the liquid whilst reheating.
- Let liquid stand for at least 20 seconds in the oven at the end of cooking time to prevent delayed eruptive boiling.
SAFETY PRECAUTIONS

IMPORTANT INSTRUCTIONS
TO AVOID THE MISUSE BY CHILDREN:

⚠️ WARNING
The appliance and its accessible parts become hot during use. Children less than 8 years of age shall be kept away unless continuously supervised.

⚠️ WARNING
This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

TO AVOID THE MISUSE BY CHILDREN:

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

- This appliance is intended to be used in household and similar applications such as: staff kitchen areas in shops, offices and other working environments; farm houses; by clients in hotels, motels and other residential environments; bed and breakfast type environments.
SAFETY PRECAUTIONS

IMPORTANT INSTRUCTIONS

TO AVOID THE POSSIBILITY OF ELECTRIC SHOCK:

• If the power supply cord of this appliance is damaged, it must be replaced with a special cord. The exchange must be made by an authorized service agent.

TO AVOID THE POSSIBILITY OF BURNS:

• Do not lean or swing on the oven door. Do not play with the oven or use it as a toy. Children should be taught all important safety instructions: use of pot holders, careful removal of food coverings; paying special attention to packaging (e.g. self-heating materials) designed to make food crisp, as they may be extra hot.

DROP DOWN DOOR MICROWAVE OVEN FEATURES

Getting Started

We know you are eager to start cooking, but before you do, please take some time to read this use & care guide. Whether you are an occasional cook or an expert chef, it will be to your benefit to familiarize yourself with the safety practices, features, operation and care recommendations of your drop down door microwave oven.

Clean the oven thoroughly with hot water and mild detergent. Rinse and dry with a soft cloth to remove any residual oil and grease left from the manufacturing process. Refer to care recommendations on page 12.

Drop down door microwave oven (ICMDBD30TM shown).
The settings feature allows the user to select individual preferences. Preferences must be reset after a power failure.

AUDIBLE SIGNAL
An audible signal will chime with every touch and upon cook time and timer completion.

To eliminate signal:
1. Touch 🎵.
2. Touch 🎵 once for 12-hour mode or twice for 24-hour mode.
3. Use number pads to enter the time of day, then touch 🎵.

To restore signal:
1. Touch 🎵.
2. Touch 🎵.
3. Touch 🎵. "SOUND ON" will appear on the control panel display.

Microwave Oven Operation

Oven Operation

CLOCK
The clock must be set prior to use and after a power failure.

Setting clock:
1. Touch 🕒.
2. Touch 🕒 once for 12-hour mode or twice for 24-hour mode.
3. Use number pads to enter the time of day, then touch 🕒.

TIMER
The timer can be set for a maximum of 99 minutes and 99 seconds. Once a time is set, the countdown will appear on the control panel display. The oven will chime and ‘END’ will appear on the display when complete.

Setting timer:
1. Touch 🕒.
2. Use number pads to enter timer duration.
3. Touch 🕒 to begin.
4. Touch 🕒 to cancel.
MICROWAVE OVEN OPERATION

Settings

COOK TIME COMPLETION REMINDER
Upon completion, the microwave oven will chime every ten seconds for the first minute; then every three minutes (for one hour) until [ ] is touched.

To eliminate reminder:
1 Touch [ ] twice.
2 Touch [ ]
3 Touch [ ] ‘REMIND SIGNAL OFF’ will appear on the control panel display.

To restore reminder:
1 Touch [ ] twice.
2 Touch [ ]
3 Touch [ ] ‘REMIND SIGNAL ON’ will appear on the control panel display.

WEIGHT UNIT
For cooking modes where weight is required, the default unit of measure can be changed from pounds to kilograms.

To change unit of measure to kilograms:
1 Touch [ ] three times.
2 Touch [ ]
3 Touch [ ] ‘KGS SET’ will appear on the control panel display.

To change unit of measure to pounds:
1 Touch [ ] three times.
2 Touch [ ]
3 Touch [ ] ‘LBS SET’ will appear on the control panel display.

FACTORY SETTINGS
To restore the microwave oven to factory settings:
1 Touch [ ] four times.
2 Touch [ ] ‘FACTORY SETTINGS RESTORED’ will appear on the control panel display.

DEMONSTRATION MODE
Demonstration mode allows operation to be demonstrated without power to the microwave oven.

To enter demonstration mode:
1 Touch [ ] five times.
2 Touch [ ]
3 Touch [ ] ‘DEMO ON’ will appear on the control panel display. ‘DEMO’ will remain on the display.

To exit demonstration mode:
1 Touch [ ] five times.
2 Touch [ ]
3 Touch [ ] ‘DEMO OFF’ will appear on the control panel display.

Oven Operation

COOLING FAN
For cook times in excess of 3 minutes, the cooling fan will continue to operate for up to 2 minutes after cook time is complete.
MICROWAVE OVEN OPERATION

Manual Cooking

POWER LEVEL
The microwave oven has ten preset power levels.

To cook manually at 100% power:
1. Use number pads to enter desired cook time.
2. Touch .
3. Oven will chime and ‘END’ will appear on the control panel display when complete.

To cook manually at a power level less than 100%, touch [++] then use number pads to select desired power level. Refer to the chart below.

<table>
<thead>
<tr>
<th>POWER LEVEL</th>
<th>High 100%</th>
<th>99%</th>
<th>90%</th>
<th>80%</th>
<th>70%</th>
<th>60%</th>

<td>1</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

MULTIPLE SEQUENCE COOKING
The microwave oven can be programmed for up to four automatic cooking sequences, switching from one power level to another automatically.

To use multiple sequence cooking (e.g. start at 100%, then switch to 50% power):
1. Touch [++] and enter the desired power level for the first cooking sequence (for 100%, touch [++] a second time), then use number pads to enter desired cook time.
2. Touch [++] then touch 5, then use number pads to enter a second cook time.
3. Touch .

ADD MINUTE
The add minute feature cooks for one minute at 100% by touching . Touch multiple times to increase cook time. Each touch increases cook time by one minute. This feature can cannot be used with sensor cooking settings.

KEEP WARM
The keep warm feature will keep food warm for up to 90 minutes.

To use keep warm:
1. Touch .
2. Use number pads to enter desired keep warm time.
3. Touch .
4. Touch to cancel.

POPCORN
The popcorn feature has two options. Follow directions on the control panel display to select the desired option. Use only popcorn packaged for microwave ovens.

To use popcorn:
1. Touch once for regular size or twice for snack size packages.
2. Touch .

BEVERAGE
The beverage feature will reheat a beverage or prepare hot water for coffee or tea.

To use beverage:
1. Touch .
2. To reheat beverage: Touch 1, then touch or to select amount in 118 ml increments, up to 473 ml.
   For hot water: Touch 2, then touch or to select amount in 237 ml increments, up to 1.4 L.
3. Touch .

MELT
The melt feature will melt butter or chocolate.

To use melt:
1. Touch 
2. For butter: Touch 1, then touch once for 30 ml or twice for 118 ml.
   For chocolate: Touch 2.
3. Touch .

SOFTEN
The soften feature will soften ice cream or cream cheese.

To use soften:
1. Touch .
2. For ice cream: Touch 1, then touch once for 473 ml or twice for 1.9 L.
   For cream cheese: Touch 2.
   For butter: Touch 3.
3. Touch .

Manual Cooking

POWER LEVEL
The microwave oven has ten preset power levels.

To cook manually at 100% power:

MICROWAVE OVEN OPERATION

Sensor Cooking

GOURMET

The Gourmet feature detects moisture and humidity from food as it heats and automatically adjusts cook time and power level. Fresh vegetables and poultry have two options. Follow directions on the control panel display to select the desired option. Refer to the Gourmet guide.

To select Gourmet:
1. Touch ✉️, then use number pads to select desired food (e.g. 5 for baked potatoes).
2. Touch ✉️

SENSOR REHEAT

The sensor reheat feature detects moisture and humidity from food as it reheats, and automatically adjusts cook time and power level.

To select sensor reheat:
1. Touch ✉️
2. Touch ✉️

| 2      | Fresh Vegetables—Hard       | 115 g–9 kg     | Place in microwave-safe casserole. Add 15–60 ml water. Cover with lid for tender vegetables. Use plastic wrap cover for tender-crisp vegetables. After cooking, stir if possible. Let stand for 2–5 minutes, covered. |
|        | Carrots (sliced)            | 2–4 pieces     |                                                         |
|        | Corn on the Cob             |                |                                                         |
|        | Green Beans                 | 115 g–9 kg     |                                                         |
|        | Winter Squash (diced)       | 115 g–9 kg     |                                                         |
|        | Winter Squash (halves)      | 1–2            |                                                         |

| 3      | Frozen Vegetables           | 115 g–9 kg     | Add no water. Cover with lid or plastic wrap. After cooking, stir and let stand for 3 minutes, covered. |

| 4      | Frozen Entree               | 227 g–1.4 kg   | Use for frozen convenience foods. Remove package from outer wrapping and follow package directions for covering. After cooking, let stand for 1–3 minutes, covered. |

| 5      | Baked Potatoes              | 1–6 medium     | Pierce. Place in paper-towel-lined microwave oven. After cooking, remove from microwave, wrap in aluminum foil and let stand for 5–10 minutes. |

| 6      | Bacon                       | 2–6 slices     | Place in paper-towel-lined microwave safe dish. After cooking, remove from microwave, let stand for 1 minute. For thick-cut bacon, additional time may be required to achieve desired doneness. |

| 7      | Ground Meat                 | 115 g–9 kg     | Use this setting to cook ground beef or turkey as patties or in a casserole to be added to other ingredients. Place patties on a microwave-safe rack and cover with wax paper. Place ground meat in a casserole and cover with wax paper or plastic wrap. When microwave stops, turn patties over or stir meat in casserole to break up large pieces. Cover and touch ✉️. After cooking, let stand for 2–3 minutes, covered. |

| 8      | Fish                        | 115 g–9 kg     | Arrange in ring around shallow microwave-safe glass dish (foil filled with edges underneath). Cover with vented plastic wrap. After cooking, let stand for 3 minutes, covered. |

| 9      | White Rice                  | 95–512 g       | Place rice into a deep casserole dish and add double volume of boiling water. Cover with lid or plastic wrap. After cooking, stir, cover and let stand until all liquid has been absorbed. |

| 10     | Dried Pasta                 | 95–512 g       | Place pasta into a deep casserole dish and add triple volume of boiling water. Cover with lid or plastic wrap. After cooking, let stand for 3–5 minutes. |

Defrost

AUTO DEFROST

The auto defrost feature uses preset settings to defrost select food items. Refer to the auto defrost guide on the following page. For foods not listed, refer to manual defrost.

To select auto defrost:
1. Touch ✉️, then use number pads to select desired food (e.g. 3 for boneless poultry).
2. Use number pads to enter weight.
3. Touch ✉️. After a period of time, the microwave oven will stop so food can be checked.
4. Open door and turn food over.
5. Repeat until defrost is complete.

MANUAL DEFROST

The manual defrost feature automatically defrosts at 30% power. Food should be turned throughout the process to ensure even defrosting. To defrost at another power level, refer to power level on page 10.

To defrost manually:
1. Touch ✉️.
2. Use number pads to enter desired time.
3. Touch ✉️.

### CARE RECOMMENDATIONS

#### Care Recommendations

**CLEANING**

- **Stainless steel**
  - Use a nonabrasive stainless steel cleaner and apply with a soft lint-free cloth. To bring out the natural luster, lightly wipe surface with a water-dampened microfiber cloth followed by a dry polishing chamois. Always follow the grain of stainless steel.

- **Door Front**
  - Spray glass cleaner on a cloth to clean.

- **Control panel**
  - Use spray degreaser to remove fingerprints and food soil. Spray on a cloth before wiping panel.
  - **IMPORTANT NOTE:** Do not spray cleaners directly on the control panel.
  - To lock the control panel before cleaning, refer to page 8.

- **Interior**
  - Wipe with a soft damp cloth. Do not use abrasive or harsh cleaners or scouring pads. For heavier soil, use baking soda or a mild soap; rinse thoroughly with hot water. Do not use chemical oven cleaners.

- **Turntable**
  - Remove for cleaning. Wash in water with mild soap. For stubborn stains use a mild cleanser and non-abrasive scouring sponge. Turntable is also dishwasher-safe.

- **Waveguide cover**
  - Located on the inside top of the microwave interior. Carefully wipe with a soft damp cloth. Do not remove the waveguide cover.
Troubleshooting

Microwave oven does not operate.
• Verify power is on.
• Verify electrical power to unit and home circuit breaker is on.

Food in microwave oven is not heating.
• Check controls to verify proper setting.
• Microwave oven is in demonstration mode. Refer to page 9 to cancel.

Time on the display counts down very rapidly.
• Microwave oven is in demonstration mode. Refer to page 9 to cancel.

Interior light does not work.
• Contact Wolf factory certified service.

Touch controls will not operate.
• Control panel lock is on. Refer to page 8 to unlock.

Display flashes.
• Power failure. Touch and reset clock. If microwave oven was in use, reset cooking function.

Radio or TV interference caused by microwave oven.
• Verify microwave oven is on a different electrical circuit, relocate radio or TV as far away from microwave oven as possible or check position and signal of antenna.

SERVICE

• Maintain the quality built into your product by contacting Wolf factory certified service.
• When contacting service, you will need the model and serial number of your product. Both numbers are listed on the product rating plate. Refer to page 7 for rating plate location.
• For warranty purposes, you will also need the date of installation and name of your authorized Wolf dealer. This information should be recorded on page 2 of this guide.
