IMPORTANT INSTRUCTIONS
READ AND SAVE THESE INSTRUCTIONS

- Read this use & care guide carefully before using your new ventilation hood to reduce the risk of fire, electric shock or injury to persons.
- Ensure proper installation and servicing. This appliance must be properly installed and grounded (earthed) by a qualified technician.
- Warranty service must be performed by Wolf factory certified service.
- Installation work and electrical wiring must be done by qualified person(s) in accordance with all applicable codes and standards, including fire-rated construction codes and standards.
- The appliance is not to be used by children or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction.

Customer Care

The model and serial number are listed on the product rating plate. Refer to page 5 for rating plate location. For warranty purposes, you will also need the date of installation and name of your authorized Wolf dealer. Record this information below for future reference.

If your product ever needs attention, be sure to use a Wolf factory certified service provider.

Important Note

To ensure this product is installed and operated as safely and efficiently as possible, take note of the following types of highlighted information throughout this guide:

IMPORTANT NOTE highlights information that is especially important.

CAUTION indicates a situation where minor injury or product damage may occur if instructions are not followed.

WARNING states a hazard that may cause serious injury or death if precautions are not followed.
SAFETY PRECAUTIONS

IMPORTANT INSTRUCTIONS

⚠️ WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS, OBSERVE THE FOLLOWING:

a) Use this unit only in the manner intended by the manufacturer. If you have questions, contact the manufacturer.

b) Before servicing or cleaning unit, unplug the appliance or switch power off at service panel and lock the service disconnecting means to prevent power from being switched on accidentally. When the service disconnecting means cannot be locked, securely fasten a prominent warning device, such as a tag, to the service panel.

⚠️ WARNING

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

GENERAL SAFETY PRECAUTIONS

- There shall be adequate ventilation of the room when the range hood is used at the same time as appliances burning gas or other fuels.

- Do not operate any fan with a damaged cord or plug. Discard fan or return to an authorized service facility for examination and/or repair.

- This appliance must be grounded (earthed).

⚠️ CAUTION

For general ventilating use only. Do not use to exhaust hazardous or explosive materials and vapors.

- Ducted fans must always be vented to the outdoors.

- To reduce the risk of fire, use only steel ductwork.

- Do not wear loose-fitting or hanging clothing when operating this appliance. It may be ignited by burners or elements on the cooktop.
IMPORTANT INSTRUCTIONS

GENERAL SAFETY PRECAUTIONS

- Do not repair or replace any part of this appliance unless specifically recommended in this guide. All other service should be performed by a qualified technician.

- To avoid motor bearing damage and noisy or unbalanced impellers, keep drywall spray, construction dust, etc. off power unit.

- When cutting or drilling into wall or ceiling, do not damage electrical wiring or other hidden utilities.

- Please read the specification label on the ventilation hood for further information and requirements.

⚠️ CAUTION

Accessible parts may become hot when used with cooking appliances.

⚠️ WARNING

TO REDUCE THE RISK OF A RANGE TOP GREASE FIRE:

a) Never leave surface units unattended at high settings. Boilovers cause smoking and greasy spillovers that may ignite. Heat oils slowly on low or medium settings.

b) Always turn hood ON when cooking at high heat.

c) Clean ventilating fans frequently. Grease should not be allowed to accumulate on fan or filter.

d) Use proper pan size. Always use cookware appropriate for the size of the surface element.

e) Do not flambé food under the range hood.
IMPORTANT INSTRUCTIONS

GENERAL SAFETY PRECAUTIONS

⚠️ WARNING

TO REDUCE THE RISK OF INJURY TO PERSONS IN THE EVENT OF A RANGE TOP GREASE FIRE, OBSERVE THE FOLLOWING*:

a) SMOTHER FLAMES with a close-fitting lid, cookie sheet, or metal tray, then turn off the burner. BE CAREFUL TO PREVENT BURNS.
   If the flames do not go out immediately, EVACUATE AND CALL THE FIRE DEPARTMENT.

b) NEVER PICK UP A FLAMING PAN—You may be burned.

c) DO NOT USE WATER, including wet dishcloths or towels—a violent steam explosion will result.

d) Use an extinguisher ONLY if:
   1) You know you have a Class ABC extinguisher, and you already know how to operate it.
   2) The fire is small and contained in the area where it started.
   3) The fire department is being called.
   4) You can fight the fire with your back to an exit.

*Based on “Kitchen Fire Safety Tips” published by NFPA.
Control Panel

BLACK

To operate the ventilation hood, use the touch control panel on the front of the hood. Indicators will be visible in the control panel display. Refer to the chart and illustration below. Refer to the illustration below.

Control Panel

BLOWER

To adjust blower speed, touch , or . Touch again to turn the blower off.

To initiate boost mode, touch and hold for 3 seconds. Boost increases airflow by approximately 20% more than high, but is limited to 10 minutes. After 10 minutes, the blower will automatically transition to the previous selected speed.

DELAY

The delay feature automatically turns the lights and blower off after 10 minutes of operation.

FILTER

After approximately 100 hours of operation, the filter indicator will signal the filters need to be cleaned. Refer to filter removal and care recommendations on pages 6–7.

For black hoods, ‘FG’ or ‘FC’ (recirculation application) will illuminate on the control panel display. To reset the filter indicator, touch and hold for 5 seconds until ‘FF’ appears on the display.

For stainless/glass hoods, the LED will illuminate on the control panel. To reset the filter indicator, touch for 5 seconds.

LIGHT

For black hoods, touch for high or touch and hold for 2 seconds for low. Touch again to turn lights off.

For stainless/glass hoods, touch or . Touch again to turn lights off.

ON/OFF

Touch to turn the blower on low. Touch again to turn the blower off.

CARE RECOMMENDATIONS

Filter Removal

The grease filters should be cleaned when the filter indicator is illuminated on the control panel, or after approximately 100 hours of operation. The filters are dishwasher safe. Refer to care recommendations.

For black hoods, to access filters, release the catch and gently pull down the front edge of the bottom panel of the hood and allow it to rotate downward. For stainless/glass hoods, there is no bottom panel.

To remove filters, refer to the illustrations below.

IMPORTANT NOTE: Do not operate the ventilation hood without the grease filters.

Stainless/glass control panel.

Stainless/glass control panel.

CARE RECOMMENDATIONS

Care Recommendations

CLEANING

Stainless steel
Use a nonabrasive stainless steel cleaner and apply with a soft lint-free cloth. To bring out the natural luster, lightly wipe surface with a water-dampened microfiber cloth followed by a dry polishing chamois. Always follow the grain of stainless steel.

Control panel
Use a spray degreaser to remove fingerprints and food soil. Spray on a cloth before wiping the panel. Spray glass cleaner on a cloth to clean black glass. IMPORTANT NOTE: Do not spray cleaners directly on the control panel.

Filters
Filters are dishwasher safe and are designed to fit most dishwashers. Wipe filters to remove excess grease before placing in the dishwasher.

TROUBLESHOOTING

Troubleshooting

OPERATION

Ventilation hood does not operate.
• Verify power is on.
• Verify electrical power to hood and home circuit breaker is on.

Blower runs but lights do not operate.
• Verify bulbs have not burned out.

Light bulb is burned out.
• LED lighting must be replaced by Wolf factory certified service.

SERVICE

• Maintain the quality built into your product by contacting Wolf factory certified service.
• When contacting service, you will need the model and serial number of your product. Both numbers are listed on the product rating plate. Refer to the illustration below for rating plate location.
• For warranty purposes, you will also need the date of installation and name of your authorized Wolf dealer. This information should be recorded on page 2 of this guide.

Rating plate location.
